the point for determination is whether the provision of a play ground for the school can be regarded as a 'public purpose' referred to in Section 6(1) of the Land Acquisition Act, (I of 1894)

* page 21 of Saukars Land Acq. Act, 1927 Edn.

of "the expression 'public purpose' is not defined in the Act what is a public purpose and what is likely to prove useful to the public are matters left to the absolute discretion of the Local Govt, and it is not competent to the Court to impose restriction on this discretion."

(!) It appears that the purpose of the acquisition may be regarded as a 'public purpose' in accordance with the views of the Collector and the Inspector of Schools.

(5) It is true that under § 6 (3) of the Land Acquisition Act a declaration is conclusive evidence that the land is required for a public purpose & that no Court can enquire into the question whether this really is so, or not. But this renders it all the more incumbent on the Local Govt to make sure that the purpose is really a public one, and to ensure [illegible]

required for voluntary schools. (Halsbury Vol XII 12 Page 40 Para 90). It appears therefore that prima facie the present purpose may be said to be a public purpose.

(9) The procedure under the Land Acquisition Act is for a preliminary notification under Section 4 in the first instance, to be followed by a declaration later on under Section 6. Under Section 5A it is open to any person interested in the land to be required to object to the proposed declaration by the Local Govt that the land is required for a public purpose, so that a safeguard is provided to the owner before his rights are conclusively effected under Sec 6(4).

(10) The declaration under Sec 6 can be made only if the compensation is to be paid wholly or partly out of the public revenues or some fund controlled or managed by a local authority (Rules 4 Sub-rule 1). At present there appears to be no formal proposal or sanction for the payment of any portion of the compensation out of such revenues or funds.

(11) The stage at which a reference is to be made by the Collector to the Court is after a decision regarding the declaration under Section 6 (Section 5A Sub-section 2)

The Local Government need not therefore commit itself to any opinion at this stage. The matter may be considered after it is decided from what funds the compensation for the land proposed to be required is to be paid and when a reference is made by the Collector for a Declaration, after ~~making~~ hearing any objections that he may receive.

(12) There appears to be no objection to the issue of a preliminary Notification under Section 4 if the Collector asks for it

STATEMENT BY MR. ABDUL SATTAR.

I am the sole owner of the land proposed to be acquired.

I object to the acquisition, on two grounds. The site proposed to be acquired is much too small to provide a play-ground for the boys of the school.

I also object to the acquisition as the property is my ancestral property, and if it is acquired I shall have no property left in my possession.

I object to the valuation placed on the property. I have actually had offers of Rs.8000/- for the house and site as they now stand; I can produce witnesses to prove this. This offer was made about 8 years ago.

The school has a building on the other side next to which is a vacant site: ~~these~~ three two together would provide a much better play-ground ~~that~~ than site proposed to be acquired.

Mis. L. A. Case No. of 1929.

Petitioner.		Respondent.
Abdul Sattar Saheb alias Pyara Jan.	Vs.	Nusruthul Islam Boys Free School by Correspondent M. S. Abdul Wahed Saheb.

The respondent above named begs to file the following reply in answer to the objection statement filed by the petitioner:-

1. That the premises is quite necessary in the interest of the School, its acquisition will improve the sanitary condition of the school and would serve as a play ground and drill ground for the children attending the school. The educational authorities have found it sufficient and suitable for the purpose.

2. That the allegation made in para 3 of the petition is most unfair and not bonafide. It is recklessly false and made with intent to prejudice the court against the school authorities. The respondent begs to submit that the school authorities are actuated solely by considerations of the students health in praying for acquisition of the plot and not from any feelings of spite or private ill-will.

3. That the objection in para 4 has no substance in it as in case of acquisition of the premises the petitioner will be granted proper compensation out of which he can purchase property for the use and enjoyment of himself and his family.

4. That in the circumstances and in the interest of the health and the play ground of the school children the school authorities pray for its early acquisition.

"Land acquisition - Play-ground for Nasrathul Islam School Acquisition of the house east of the school".

With reference to your No. 566-D-29, dated 7-5-29, I have the honour to enclose a letter dated 28-5-29 from the Correspondent of the school, which I think, speaks for itself. I would again strongly recommend the acquisition of the building in question. The school will certainly remain where it is, and it is either a question of making it more sanitary or leaving it in its present unsatisfactory state. I would draw your attention to the views of the Residency Surgeon, in the matter.

Letter dated 28th May 1929, from M. S. Abdul Wahed, Correspondent, Nusruthul Islam Boys School, C. & M. Station, Bangalore, to the Inspector of Schools, Bangalore.

---:0:---

With reference to your letter No. 1468/1-24 dated 13-5-1929, the letter of the Sub-Assistant Inspector of Schools R.C.No.51/28 dated 15-5-1929, I write to state that it is not possible to suggest a more suitable place for acquisition.

The Collector's remarks about the locality is the exact reason that prompted the school authorities to ask for the property in question to be acquired.

As you are possibly aware, the school is situated in a most conjested area under force of circumstances because it caters for the poor children of the locality, who are all residing along the same street and round about. It is a free school, aided and recognized by the Government and if therefore it is shifted to some other locality, it will fail to serve the purpose for which it is intended. The boys will not be sent to a school which is far away.

Under the circumstances the school authorities thought it necessary to provide a little more ventilation to the school premises and to provide a little more room for the little boys to move about. You must have seen the building, and you will gather that it has absolutely no doors or windows on the eastern side -- namely on the side on which the proposed property to be acquired, is situated.

The schools extends from the Old Bamboo Bazaar Street to the main channel at the back. On the Western side there is a building which is intended to start a Girl's School. So the only side -- on which the school premises can be opened out is on the East, and it is with this urgent need of the school, that the Collector

P.T.O.

Collector was approached to acquire the premises and asked to deposit Rs.2386/- and odd, the estimated value as compensation which has been already deposited. It is intended by the authorities, to open four large doors on this side, so that the interior of the school may be more healthy and sanitary.

I may here mention that the Municipality itself has opened a Municipal School in the similar locality and has acquired the surrounding buildings to give it as much ventilation as possible If this has been done by the Municipality, it is but right, that our school should be similarly ventilated and given an open surrounding.

I also add that the Residency Surgeon Lt. Col. McPherson has inspected the school and is in a position to give you expert -- opinion upon the sanitary condition of the school buildings, and the urgent need of acquiring the proposed property. His opinion may kindly be asked for.

I shall therefore be obliged by you kindly forwarding my letter to the Collector, with your favourable remarks and pray that the Collector be persuaded to grant my prayer.

The objection raised by the owner may be over-ruled as recommended by the Collector. But under the proviso to section 6(1) of the Land Acquisition Act, no declaration that the land is required for a public purpose can be issued unless the compensation to be awarded for such property is to be paid by a Company or wholly or partly out of public revenues or some fund controlled or managed by a local authority. Local authority means any Municipal Committee, District Board, body of Port Commissioners, or other authority legally entitled to or entrusted by the Government with the control or management of any municipal or local fund.

The cost of the acquisition is to be paid by the Correspondent of the Nasratul Islam School who has already deposited with the Collector a sum of Rs.2386-13-0 for the purpose. The School is only a private institution drawing a grant-in-aid from Government under Chapter III of the Grant-in-Aid Code for Indian Schools in the Civil and Military Station of Bangalore. Payment by the Correspondent cannot, it seems, be considered as payment by a Company or wholly or partly out of public revenues or some fund controlled or managed by a local authority. If, however, the institution is given a grant-in-aid by Government towards the cost of such acquisition, it will then satisfy the condition, namely, paid partly out of public revenues. In this connection, please see the case in which land was acquired for the Wesleyan Mission Girls School, Cleveland Town, in 1915. There the acquisition was justified because the Government paid a grant for purchasing the property for the extension of the school.

In his letter to the Inspector of Schools the Sub Assistant Inspector of Schools says that the Correspondent intends to apply to the Inspector of Schools for a half

SIR,

Land Acquisition - Play ground for Nasratul Islam School - Acquisition of the house east of the school - Residency Notification No. 14 dated 11-3-29.

----:0:----

I enclose copies of the correspondence noted in the margin.

2. I have heard the objections and inspected the land with the Inspector of Schools. I consider that the acquisition will certainly improve the ventilation immensely if windows and doors can be opened on the east side and the small yard will be useful as a play ground in this congested locality. In these circumstances, I recommend that the Hon'ble the Resident may be pleased to over-rule the objections raised by the owner and to direct the acquisition of the land.

3. To save delay I am enclosing a draft declaration under Section 6 of the Act for favour of approval and publication in the Residency Orders.

4. The plan of the land was sent to you with my letter No. 566-D-29 dated 23-2-29.

The petitioner above named most humbly begs to file his objections to the acquiring of his premises No.60-61, Old Bamboo Bazaar Road, Bangalore under Section 4(1) of the Act 1 of 1894 for a play ground for Nasratul-Islam School, Bangalore as follows:-

1. that the petitioner is the owner of the premises notified for acquisition by the Hon'ble the Resident in Mysore for the purpose of a play ground for Nasratul-Islam School, Bangalore, namely 60-61, Old Bamboo Bazaar, Bangalore.

2. that the said notified premises are not the best adapted -- for the purpose of a play ground as it would not afford sufficient room for the purpose.

3. that the authorities of the school are not moved by a charitable desire of providing the school with a play ground so much as to deprive the poor petitioner of his only property which they have been attempting to do these 25 years out of shere spite for him and his father as there is misunderstanding between his father and one of the management.

4. that the petitioner is a poor man who has nothing except the notified premises to live upon, and if he is deprived of them he will be left in the street with his father and his family.

5. the petitioner most humbly throws himself upon your mercy and sympathy and prays to save him from a sad disaster and allow him to live in his ancestral house.
